## EXECUTIVE SUMMARY

Executive Summary:

Highly skilled and experienced web developer with expertise in the MERN stack, specializing in building web applications using Vue.js, React.js, Node.js/Express, and MongoDB/SQL Server. Proficient in developing user interfaces with React.js, Redux, and Vue.js, with a strong understanding of component routing and DOM manipulation.

Adept at utilizing React.js and Vue.js to create single-page applications, providing seamless user experiences. Possesses in-depth knowledge of MongoDB and SQL Server, along with proficiency in tools and libraries such as Mongoose, env, and more. I also used Tailwind, bootstrap, material UI, and design libraries for CSS and design.

Demonstrated expertise in the Node.js/Express framework for developing RESTful APIs. Skilled in implementing essential middleware like JSON Web Token, Bcrypt, Express.js, Filesystem, Multer, Nodemailer, ejs, and more.

Consistently delivers high-quality code and excels at problem-solving and debugging. Collaborative team player with effective communication and project management skills. Continually stays updated with the latest technologies and industry trends to deliver cutting-edge solutions. GIT etc

## TECHNICAL COMPETENCIES

Programming & Scripting Languages	:	Javascript, HTML5, CSS3, C, JSX, ,SQL
Framework	:	Express
Platforms (IDE)	:	Visual Studio code, Visual Studio, Eclipse
Development Tools and Libraries	:	React, Vuejs, Tailwind, Chart.js, PostgreSQL
Database	:	Oracle SQL, MongoDB
Operating Systems	:	Ubuntu, Microsoft Windows, Mac OS.
Source Code Management	:	<a href="#">git (Github)</a> ,
Linkedin Profile	:	<a href="#">LINKEDIN PROFILE</a> , <a href="#">portfolio</a>

## WORK EXPERIENCE

**Full Stack Developer**

*Feb 2024– continue*

**Living Things Appliances, Electrical, and Electronics Manufacturing Mumbai, Maharashtra**

### **PROJECT- UBA(Utility Bill Analytics) Web App**

**Problem Statement:** This system aims to provide comprehensive electricity bill analytics by tracking power consumption, payments, and various metrics related to electricity usage. The system will generate PDF documents that display power consumption details, including electricity bill payments, power factors, penalties for excess consumption, and incentives for efficient usage. It will differentiate between various types of bills, such as residential, commercial, and industrial, and provide insights into monthly and yearly carbon emissions based on power usage. Additionally, the system will manage and monitor the billing process, ensuring accurate records of electricity consumption, penalties, and incentives while helping users keep track of their environmental impact through carbon emission calculations.

**PROJECT :** Urjaved(e-bill)

**Problem Statement:** Develop a system for multiple power consumption bills to be scanned automatically and return all the information to the client.

**Technology:** React, HTML, CSS, JSX, Bootstrap, Tailwind, Looker studio.

**Junior Software Engineer**

*Jan 2023– Feb 2024*

**Axar Decision Software**

**PROJECT: Sikka Prime, Patient Portal**

**Problem Statement** -Develop a single platform. To combine products.

**Solution Implementation** - Built an easy-to-use web app to give all services in one login and combine other mandatory web apps in one.

**Technology:** React, HTML, CSS, JSX, Bootstrap, Material-UI, kendo, chartjs

**Academic Project - MCA**

**Problem Statement** - Job Portal -Build a one web app which gets useful for recruiters and jobseekers

**Solution Implementation** - Built good **UI** and API to manage the hiring process Automatically

- Recruiter creating Company Profile
- Jobseeker Creating personal profile
- There is no need to manage the hiring process for developer
- It can communicate with each other
- **Technology:** React, HTML, CSS, JSX, Bootstrap, MongoDB, NodeJS, Express, GIT, Github, Looker Studio, UI-path

## **COURSES / CERTIFICATIONS**

- MERN Stack Developer **fullstackguru ,pune** *Jan '22-Jun' 22* **Link:** [Course Certificate](#)

## **ACADEMICS**

**Master of Computer Application.**

*July '19- Jun'22*

Yashoda Technical Campus, Wadhe, Satara

**Bachelor of Computer Science.**

*Jun '16- March' 19*

Yashwantrao Chavan Institute of Science, Satara
